## **Introduction to the Strategic Plan for Fairfield County, 2022-2024**

This introductory section of the Strategic Plan includes a summary about strategic planning, the mission of Fairfield County Auditor's Office, and strengths, weaknesses, opportunities, and threats.

### ***What is Strategic Planning?***

Strategic planning is an organizational management activity that is used to set priorities, focus energy and resources, strengthen operations, ensure that employees and other stakeholders are working toward common goals, establish agreement around intended outcomes/results, and assess and adjust the organization's direction in response to a changing environment. It is a disciplined effort that produces fundamental decisions and actions that shape and guide what an organization is, who it serves, what it does, and why it does it, with a focus on the future. A strategic plan is a document used to communicate with the organization about goals and objectives typically for a mid-term period. The strategic plan is a helpful tool for the organization to reach the *vision: secure, attractive residential and commercial neighborhoods where people unite to form a caring, learning, participating, sustainable community where each person is important.*

The strategic plan is a living document and is expected to be updated and reviewed regularly. The normal range for a strategic plan is three to five years, which allows an organization to gaze beyond the annual budget horizon. A strategic plan allows leaders to consider current issues in the context of the relatively near future; to anticipate challenges ahead; and to decide on how to deal with those challenges as they arise. Rather than a process apart from everyday functions of the organization, the mid-range nature of strategic planning allows the organization to bring alignment within a set of mutual goals. A strategic plan is a flexible, living document that should be adapted to the internal and external changes that are inherent in a complex environment.

### ***Mission of the Fairfield County Auditor's Office***

### ***SWOT Analysis for Insight to a Strategic Plan***

Prior to the retreat and during the retreat, employees participated in a SWOT analysis. SWOT stands for:

- **S** - Strengths
- **W** - Weaknesses
- **O** - Opportunities
- **T** – Threats

A SWOT analysis helps to create an ultimate to-do list, and it forces you to think about the future. A SWOT analysis lists good and bad things, both from an internal and external viewpoint.

<b><i>SWOT Factors</i></b>	<b><i>Positive</i></b>	<b><i>Negative</i></b>
<b>Internal</b>	Strengths	Weaknesses
<b>External</b>	Opportunities	Threats

Strengths and weaknesses are internal factors, while opportunities and threats are external factors. Strengths and weaknesses mostly focus on the present, while opportunities and threats mostly focus on the future.

A SWOT analysis was part of interviews of employees and within multiple meetings of 29 employees, the full staff. Employees were requested to think about the Auditor's Office and to think of the entirety of county government. With a SWOT analysis, there are no wrong answers. The expertise and experience of the employees were trusted, and their perspectives were valued. All responded with input.

<i>Summary of SWOT Analysis</i>

***Initial Observations (In October, with expectations for refinement at the annual retreat.)***

1. Give employees a ***sense of calm and support*** to help them through this time of change.
2. With employees and stakeholders, ***examine processes for improvements using a kaizen-based process*** to remove steps that do not add value and leverage steps that do add value.
  - *Data Board* responsibilities are not aligned well with progressive technology improvements – evaluate other governance models – Does the Data Board need to exist?
  - Explore if *Budget Commission* responsibilities can be met without formal processes of transcribed hearings; there is a codified process for waivers
  - *Records & Retention* responsibilities need maintained
  - *Use of MUNIS related technology* requires training and additional resources – there is a lot of opportunity to improve internal communications if there are additional resources
  - REA/Recorder/Map Room relationships have been altered by *building changes*
  - *Establish an Auditor/Commission Connection Work Group* for ongoing financial planning and human infrastructure support
  - Establish a *payroll and A/P working group*, focus on process
  - *Develop training and outreach by videos* to improve civic and internal knowledge

3. Reward **customer service skills** (return phone calls within one day; return emails within one day, return correspondence within five days) to increase service orientation and support employees' sense of urgency.
4. **Align position descriptions with priorities** to establish expectations. Provide training for leaders and for all employees, **especially leadership training**. Create a more accurate table of organization.
5. Bring in association and other assessments to **strengthen cybersecurity efforts**. Build upon technology work group findings. Develop a recommendation for telecommunications. Determine what is needed to improve network or infrastructure knowledge.
6. **Succession planning is an ongoing process**. Recruitment, retention, and recognition activities are meaningful. **Develop coaching and mentoring opportunities**.
7. **Be available to elected officials** and seek input and feedback about strategic efforts.
8. The **next triennial update is in 2022**; it is based on current real estate market values using a sales analysis. The next sexennial reappraisal is in 2025. It takes about 2 ½ years to complete a reappraisal. Appraisers will perform exterior reviews of properties to accurately assess values. Changes are due to new construction, a change in the physical size or shape or properties, or a demolition or damage to a property.

#### ***Triennial Update***

The Fairfield County Auditor's Office will perform a **triennial update** in 2022. This update is a review of valid sales that have occurred over the prior three years. The state issues a recommendation based on the relationship between value and sales price. By reviewing sales and market trends, property values are adjusted incrementally creating a more predictable tax base (and a less shocking change at the sexennial update). Adjustments vary between neighborhoods based on market conditions.

#### ***Sexennial Update***

The Fairfield County Auditor's Office will perform a county wide reappraisal in 2025. This is known as a **sexennial update**. This reappraisal involves physically viewing all properties and updating the value attributes, such as size, condition, construction quality, desirability, and overall utility. Along with physically reviewing properties, appraisers will conduct a thorough review of the prior three years of sales including neighborhood analyses. Market trends provide the framework for updated appraisals. Adjustments vary between neighborhoods based on market conditions.

9. The BOR process has improved, and there are opportunities to improve communication and understanding of the **appraisal and review process**.

***For external communications:***

- Create fact sheets for countertops, mailings, newsletters, media releases
- Create video presentations for how the process works
- Add more information to the “postcards” about reappraisals
- ***Use social media***
- Conduct presentations for the Bar, Realtors, and Elected Officials
- Continue informal reviews
- Engage professional services for search engine optimization and social media marketing
- Create a video about how the values effect taxes that are assessed

***For internal communications:***

- Focus on ***payroll coordination*** and improvements unique for each department
- Increase ***integration with departments***

Relating to the themes, and at the retreat, the questions asked were:

1. Do the themes make sense?
2. Is there a theme missing in this initial analysis?
3. Do the action steps relate to the themes?
4. What action steps should be added?

It is expected that there will be ongoing updates to the action steps, with leaders and small groups developing goals.

***Strategic Themes***

1. **Provide Supervisory Support & Coaching Opportunities for Team Members**
2. **Update Financial and REA Processes to Add Value**
3. **Focus on Strengths & Customer Service**
4. **Improve Communication and Outreach**
5. **Improve Use of Technology and Records Management Processes**

***Evaluation of the Strategic Plan***

The initial plan was presented for additional input and feedback in January 2022. Ongoing updates at each roundtable meeting and at various other meetings are expected. The themes will be communicated on an ongoing basis with all employees and stakeholders.

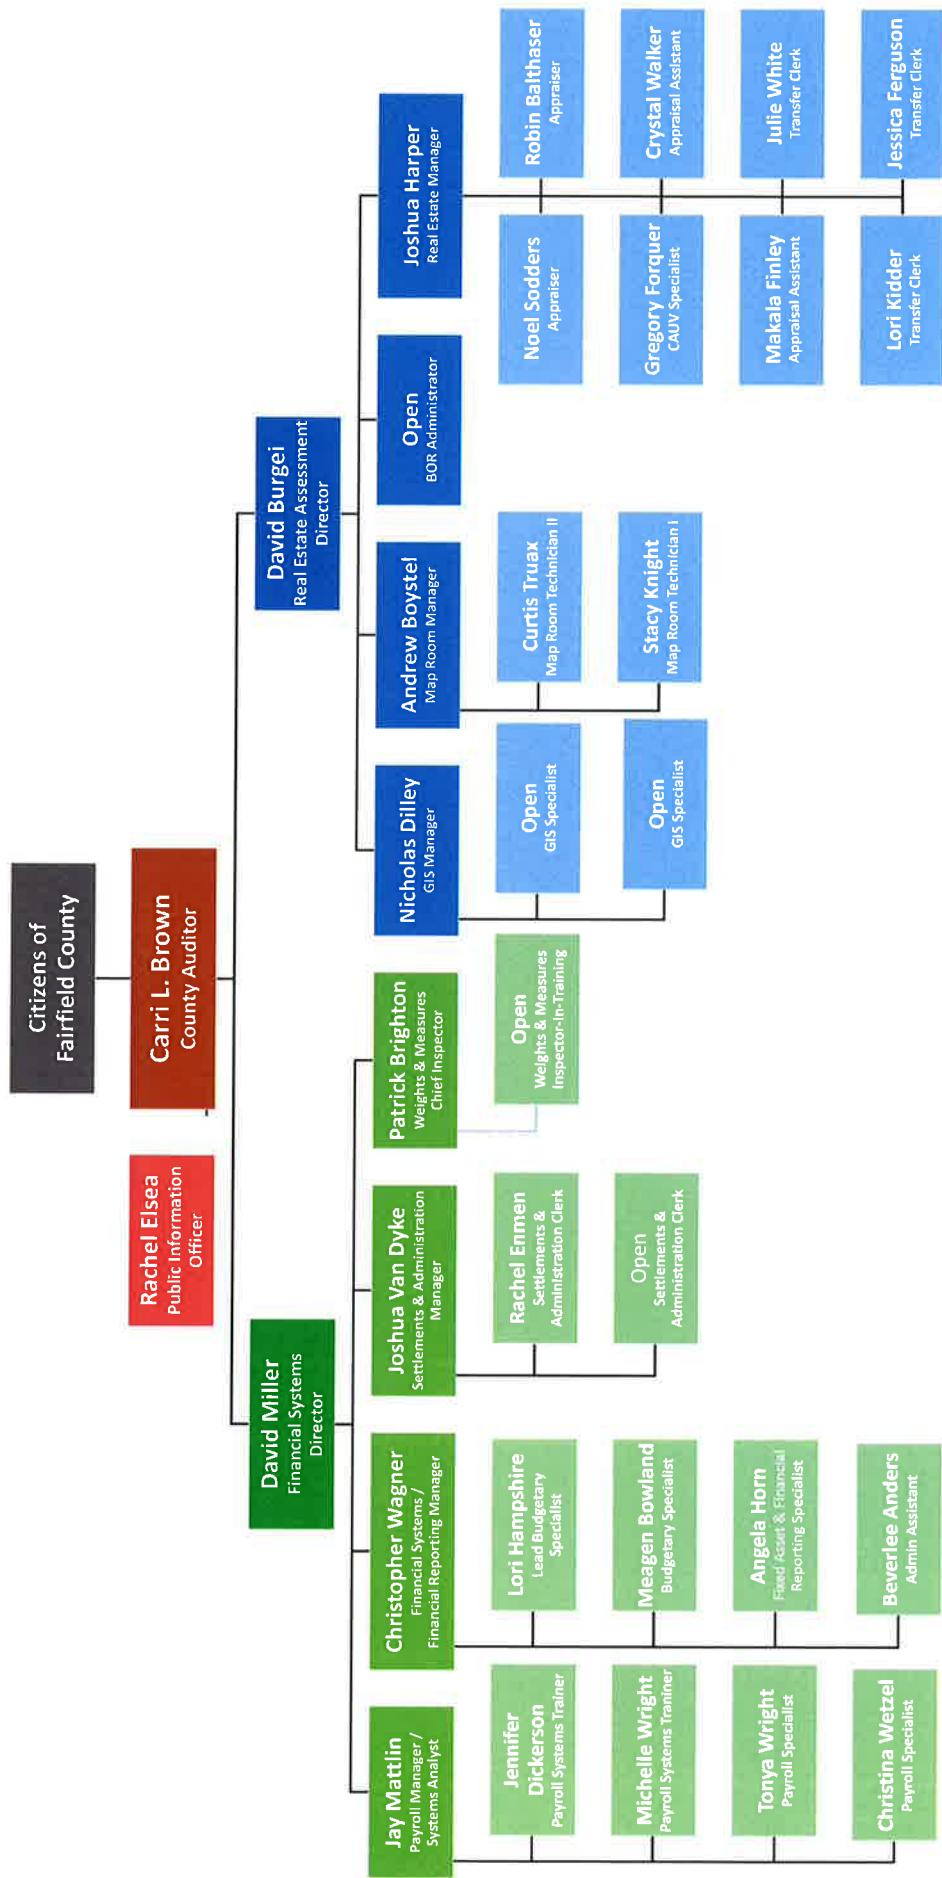

An electronic survey was issued through the end of December 2021. Stakeholders were invited to participate in this way either anonymously or by name. In addition, feedback and input was sought from multiple stakeholders by email and in person. There is an expectation of an ongoing process of soliciting input and feedback. The plan will be placed on the county website.

A strategic plan is document for guidance; it is a living document. The comments sections in the strategic theme charts imply some suggestions for metrics. Metrics will be reviewed throughout the plan period to help document progress.

If there are any questions or comments about the strategic plan, please contact Carri Brown, [carri.brown@fairfieldcountyohio.gov](mailto:carri.brown@fairfieldcountyohio.gov) or (740) 652-7096.
