Fairfield County Auditor Releases 2022 Year in Review Report

Lancaster, Ohio – The Fairfield County Auditor’s Office has released its 2022 Year in Review Report highlighting many projects and services provided throughout the year. This document allows the public to see the many roles the Auditor’s Office has in county government from the assessment of property, to serving as the Chief Financial Officer, to administering various state programs.

In 2022, the Auditor’s Office conducted over 1,000 informal reappraisal hearings (with in-person and virtual options on request) and collected 504 surveys from the more than half that were held in person. The customer satisfaction surveys were very positive. The fact sheet highlights this and other workload statistics for context.

Some of the statistics included are the number of checks or electronic transfers issued, new construction data, and demographics. The Auditor’s Strategic Plan is also summarized to show accomplishments in 2022 and strategies for the future.

Dr. Carri Brown, County Auditor, stated, “As a team, the County Auditor’s Office works hard to ensure high quality services at exceptional value to taxpayers. We foster financial sustainability, and we enhance the county’s reputation as a high-performing, learning, and caring organization. Our strategic plan is a result of a comprehensive examination of multiple processes, and it is encouraging to see the tremendous results in just one year. Along with multiple stakeholders, we are setting a strong foundation for the future.”
